Subject: Monroe Leachate Reintroduction Plan

Hi John,

I took a quick look at the leachate reintroduction plan submitted by Republic yesterday evening. The focus of our previous comment letter on in first draft of the plan was the request of an air monitoring plan during the reintroduction of the leachate to the sewer. You will find the air monitoring section of the plan on page 6 of appendix B. There isn't much detail to it. Please share with Ula and let me know what you both think.

Thank you,

Rich
